

Sardis.

From our own Correspondent.

We were glad to have again the pleasure of seeing Mr. Robert Stevenson in Sardis, and to hear such favorable reports respecting the prospects of B. C. mining.

We hear there is a probability of the Union Cheese Factory resuming operations shortly. We hope the patrons will have a very successful season.

Rev. Mr. MacGregor preached to a large congregation at the Camp Ground on Sunday afternoon, and in the evening the Rev. J. Hall conducted the service at the Institute.

It is with pleasure we see that Mr. J. Shardelow is gradually recovering the use of his foot. We hope he will soon be able to throw away his crutches and step along in his familiar rollicking gait.
